Individual's Statement of Understanding

By receiving this test, I agree to the following:

I have been provided with a COVID-19 factsheet and have read the COVID-19 testing information statement. I understand that it is recommended by Seattle and King County Public Health that I consent to COVID-19 testing because I may have been exposed to an individual who tested positive for COVID-19. I understand that my bodily fluids will be tested for the coronavirus [SARS-CoV-2].

I have been instructed that the test to detect whether I have COVID-19 can produce a false positive result when coronavirus is not present and that follow-up tests may be required.

I have had the opportunity to ask questions, which were answered to my satisfaction. I understand that the results of this test will be kept confidential and will only be released to Seattle and King County Public Health, the medical personnel directly responsible for my care and treatment, to the exposed health care workers for their medical benefits, and only to others as required by law. I understand that my medical record may be shared with my physician/insurance for billing purposes and/or notification of future health events.

Furthermore, I am requesting that the testing be given to me or the person above for whom I am the legal guardian. I hereby acknowledge receipt of ICHS Clinic's Notice of Privacy Practices. I agree that my insurance may be billed for services and I am responsible for payment if services are not covered for any reason or are subject to any co-pays, deductibles, coinsurance or prior authorizations.
